

COMMUNITY MENTORING PROGRAM

At Fusion we believe that everyone has a contribution to make to our community. In our program all projects that young people work on with their mentors will benefit others in some way. Young people will benefit from learning new skills and achieving something that matters. Our mentors are also excited to have the chance to give back.

If you are aged 12-16 this might be for you

The program is a 3 hour commitment per week for 6 months. It is suited to young people who are on a flexible school schedule or are home educated. We currently have mentors with skills in fine arts, building, woodwork and gardening who are coming together to create an outdoor community space at the community centre and other projects.

INTERESTED?

Email: Lauren.fakehinde@fusion.org.au for an application form and to arrange a time to catch up so we can get to know you , you can get to know us and so we can find the right mentor for you. Please note there are limited places available.

Motivated by Christian values and the belief that people matter, Fusion works to see transformation in individual lives and the community through a wide range of local initiatives.

All Fusion programs are supervised by qualified youth workers
